The SOM Institute

The SOM Institute at Göteborg University, founded in 1986, conducts interdisciplinary research and organizes seminars on the topics of Society, Opinion and Media (hence the name SOM). The Institute is jointly managed by the Department of Journalism and Mass Communication, the Department of Political Science and the School of Public Administration at Göteborg University.

The Institute is headed by Professor Sören Holmberg, Department of Political Science, Professor Lennart Weibull, Department of Journalism and Mass Communication, and Director Lennart Nilsson, Center for Public Sector Research.

National SOM

From 1986 till 1997, the core of the SOM Institute has been an annual nationwide survey, *National SOM*, carried out every autumn in the form of a mail questionnaire to 2 800 randomly selected persons between the ages of 15 and 80. Since 1998 the survey has more than doubled, and now comprising 6 000 respondents with an increased age limit to 85.

The central questions addressed in *National SOM* are attitudes toward mass media, politics and public services. A report summarizing the main results of each year's survey is published annually. The data files from the surveys are deposited at the Swedish Social Science Data Archive in Göteborg. The results on the following pages are based on data from *National SOM*.

Western and Southern SOM

Beginning in 1992, a similar survey has been conducted in Western Sweden. Called *Western SOM*, this survey was originally limited to Göteborg and its surrounding municipalities. The survey has since 1998 been widened, to comprise the entire Västra Götaland's Region with a sample of 6 000 persons. Since 2001 three regional surveys have been conducted in Southern Sweden (Skåne) as well.

Local SOM

In the fall of 1996, a series of local surveys was conducted for the first time in three districts of Göteborg and in one neighboring municipality. The sample size was 1 200 respondents per sample region. The purpose of these local surveys is to better analyze the connection between people's living conditions and their attitudes, perceptions and behaviour.

Student SOM

To help generate a wider interest in SOM, *Student SOM* was introduced in 1993. It is based on a questionnaire issued to all first-year students at the three departments, from the year 2000 to the whole social science faculty, with questions concerning their studies. *Student SOM* also contains items from *National SOM* and provides an opportunity to compare students with the general public as well as making it possible to explore methodological issues.

Office location

The SOM office is located at the Department of Journalism and Mass Communication. Åsa Nilsson and Sanna Johansson are project directors, Jonas Ohlsson assistant researcher while Kerstin Gidsäter is responsible for administration and publishing.

Social Trends

Employment

Question: "Which of the following groups do you belong to?"

Comment: Based on self classification. Unemployment includes people in relief work or training programs. The percent calculations are based upon respondents who answered the questions.

Principal investigators: Sören Holmberg, phone: +46 31 786 12 27, e-mail: soren.holmberg@pol.gu.se and Asa Nilsson, phone: +46 31 786 12 39, e-mail: asa.nilsson@jmg.gu.se

Assessing Swedish Economy

Question: "According to your view, during the last twelve months, has the Swedish economy improved, remained the same, or worsened?" All respondents are included in the percent calculations.

Principal investigators: Sören Holmberg, Phone: +46 31 786 12 27, e-mail soren.holmberg@pol.gu.se, Lennart Weibull, phone: +46 31 786 12 18, e-mail: lennart.weibull@jmg.gu.se

Assessing Personal Financial Situation

Question: "According to your view, during the last twelve months, has your personal financial situation improved, remained the same, or worsened?" All respondents are included in the percent calculations.
