

ERRATUM
Abdul-Karim Abbas

This is an Erratum for the thesis: **Re-evaluation of the hypothesis that LTP has two temporal phases and that the late phase is protein synthesis-dependent.**

Paper IV

After submission the Paper IV to Reviews in the Neurosciences, one of the Reviewer's suggestions is to modify the title of the paper. Thus, the revised paper got this new title: "Abdul-Karim Abbas, Agnès Villers, Laurence Ris (2015). Temporal phases of Long-term potentiation (LTP): myth or fact? Review in the Neurosciences" which replaced the previous title cited in the Thesis frame.

Moreover, the same paper subjected to editorial changes and improvements which will appear in its published form soon.
