Det betyder att du kan söka och kopiera texten från dokumentet. Vissa äldre dokument med dåligt tryck kan vara svåra att OCR-tolka korrekt vilket medför att den OCR-tolkade texten kan innehålla fel och därför bör man visuellt jämföra med verkets bilder för att avgöra vad som är riktigt.

This work has been digitized at Gothenburg University Library and is free to use. All printed texts have been OCR-processed and converted to machine readable text. This means that you can search and copy text from the document. Some early printed books are hard to OCR-process correctly and the text may contain errors, so one should always visually compare it with the images to determine what is correct.

FÖRORD

Styrelsen för internationell utveckling, SIDA, och Fiskeristyrelsen slöt 1974 ett samarbetsavtal. Enligt avtalet skall Fiskeristyrelsen hjälpa SIDA med vissa arbetsuppgifter vad gäller bistånd inom fiskesektorn. För att administrera samarbetet mellan myndigheterna bildades biståndsavdelningen vid havsfiskelaboratoriet i Lysekil. Avdelningen fungerar som ett sekretariat och förmedlare av uppdrag från SIDA. Arbetsuppgifterna, som anges i avtalet, är: konsultverksamhet, dokumentation, rekrytering, utbildning och information. Dokumentationsverksamheten omfattar bl a insamling, systematisering och kunskaps- och erfarenhetsbevakning med anknytning till fiskets område. Avdelningen bygger därför upp ett bibliotek, ett specialbibliotek, inriktat på litteratur om fiske i u-länder. De flesta av Sveriges programländer för biståndsverksamheten ligger i Afrika och Asien och merparten av litteraturen på avdelningen behandlar förhållandena i dessa världsdelar. Biblioteket har dock litteratur även från andra områden. Följande ämnesområden är vi speciellt intresserade av: fiskeribiologi, fiskeristatistik, hydrografi, vattenföroreningar, akvakultur, fiskebåtar, redskap, hanterings-, berednings- och distributionsmetoder, socio-ekonomi samt litteratur om internationella organisationer på fiskets område. Biståndsavdelningen planerar att kontinuerligt ge ut nyförvärvslistor över nyanskaffad litteratur. Den här förteckningen kan ses som den första nyförvärvslistan, och den omfattar publikationer inkomna under perioden januari 1975 - juni 1978. I fortsättningen planerar vi ge ut förteckningar över nyförvärv en gång per år, nästa nummer kommer alltså hösten 1979. Förteckningen Fiske i u-land innehåller större delen av biståndsavdelningens bokbestånd. All litteratur som är upptagen i den här katalogen lånas ut, och vi står också gärna till tjänst med att ta kopior av artiklar m m.
