

Human growth patterns

– with focus on pubertal growth and secular changes

Anton Holmgren

Anton Holmgren is a specialist in pediatrics, with many years of clinical interest in pediatric endocrinology and growth. He has worked at tertiary centers for pediatric endocrinology in Malmö/Lund and Gothenburg and is working clinically with pediatric endocrinology and diabetology in Halmstad, Halland, Sweden. The thesis is based on a PhD research project carried out between 2013-2018.
